

## Curriculum Vitae

Notarization. I have read the following and certify that this *curriculum vitae* is a current and accurate statement of my professional record.

Signature: 

Date: 7/20/22

### **I. Personal Information**

#### I.A. UID, Last Name, First Name, Middle Name, Contact Information

UID: 112816780

Lefrak Hall 0119B  
(301) 405-4224  
sander22@umd.edu

#### I.B. Academic Appointments at UMD

Hearing and Speech Sciences  
Associate Professor (2018 – present)  
Assistant Professor (2013 – 2018)

Comparative and Evolutionary Biology of Hearing (CEBH) Training Program  
Member (2013 – present)

Neuroscience and Cognitive Science (NACS) Program  
Faculty Member (2013 – present)

Language Science Center (LSC)  
Faculty Member (2014 – present)

#### I.C. Administrative Appointments at UMD

Director of Graduate Studies (2021 – present)

#### I.D. Other Employment

2009-2012, Graduate Research Assistant, Northwestern University  
2007-2009, Teaching Assistant, Northwestern University  
2000-2006, Facilitator, University of Florida, Doctor of Audiology program  
1997-2007, Clinical Audiologist, Allina Medical Clinics, Faribault and Northfield, MN  
1995-1997, Private Practice Audiologist, Center for Better Hearing, Inc., Faribault, MN  
1982-1995, Clinical Audiologist, State of Minnesota

#### I.E. Educational Background

2012 Ph.D. Communication Sciences and Disorders, Northwestern University, Evanston, IL  
2000 Au.D. Audiology, University of Florida, Gainesville, FL  
1981 M.A. Speech and Hearing Sciences, Indiana University, Bloomington, IN  
1979 B.A. Speech and Hearing Sciences, Indiana University, Bloomington, IN

#### I.G. Professional Certifications, Licenses, and Memberships

2013 Department of Health and Mental Hygiene, Audiologist, State of Maryland  
1981 Audiologist, American Speech-Language-Hearing Association, CCC-A

## II. Research, Scholarly, Creative and/or Professional Activities

Note: underlined names denote mentoring of doctoral students and postdoctoral fellows and \*asterisks placed before names denote mentoring of undergraduate students.

### II.A. Books

#### II.A.2. Books Edited

1. Kraus, N., **Anderson, S.**, White-Schwoch, T., Fay, R.R., Popper, A.N. (Eds.) (2017). *The Frequency-Following Response: A Window into Human Communication*. Springer International Publishing, Cham, Switzerland.

### II.B. Chapters

#### II.B.1. Books

1. Kraus, N. and **Anderson, S.** (2016). "Auditory processing disorder: Biological basis and treatment efficacy," in *Translational Research in Audiology and the Hearing Sciences: An Essential Guide for Scientists and Clinicians* by LePrell et al. (Springer International Publishing, Cham, Switzerland).
2. Kraus, N. and **Anderson, S.**, White-Schwoch, T. (2017). "The Frequency-Following Response: A window into human communication," in *The Frequency-Following Response: A Window into Human Communication* by Kraus et al. (Springer International Publishing, Cham, Switzerland).
3. **Anderson, S.** (2017). "Clinical translation: Aging, hearing loss, and amplification," in *The Frequency-Following Response: A Window into Human Communication* by Kraus et al. (Springer International Publishing, Cham, Switzerland).

### II.C. Articles in Refereed Journals

#### II.C.1. Refereed Journal Articles (Note: Online publications have DOIs in place of page numbers)

1. **Anderson, S.**, Skoe, E., Chandrasekaran, B., and Kraus, N. (2010). "Neural timing is linked to speech perception in noise," *J. Neurosci.* 30, 4922-4926.
2. **Anderson, S.**, Skoe, E., Chandrasekaran, B., Zecker, S., and Kraus, N. (2010). "Brainstem correlates of speech-in-noise perception in children," *Hear. Res.* 270, 151-157.
3. **Anderson, S.**, Chandrasekaran, B., \*Yi, H.-G., and Kraus, N. (2010). "Cortical-evoked potentials reflect speech-in-noise perception in children," *Eur. J. Neurosci.* 32, 1407-1413.
4. **Anderson, S.** and Kraus, N. (2010). "Objective neural indices of speech-in-noise perception." *Trends Amplif.* 14, 73-83.
5. **Anderson, S.** and Kraus, N. (2010). "Sensory-cognitive interaction in the neural encoding of speech in noise: A review," *J. Am. Acad. Audiol.* 21, 575-585.
6. **Anderson, S.**, Parbery-Clark, A., \*Yi, H.-G., and Kraus, N. (2011). "A neural basis of speech-in-noise perception in older adults," *Ear Hear.* 32, 750-757.
7. Parbery-Clark, A., Strait, D., **Anderson, S.**, Hittner, E., and Kraus, N. (2011). "Musical experience and the aging auditory system: Implications for cognitive abilities and hearing speech in noise," *Plos ONE* 6, e18082.
8. **Anderson, S.**, Parbery-Clark, A., White-Schwoch, T., and Kraus, N. (2012). "Aging affects neural precision of speech encoding," *J. Neurosci.* 32, 14156-14164.
9. Parbery-Clark, A., **Anderson, S.**, Hittner, E., and Kraus, N. (2012). "Musical experience offsets age-related delays in neural timing," *Neurobiol. Aging* 33, 1483.e1-4.
10. Parbery-Clark, A., **Anderson, S.**, Hittner, E., and Kraus, N. (2012). "Musical experience strengthens the neural representation of sounds important for communication in middle-aged adults," *Front. Aging Neurosci.* 4, 1-12.

11. Hornickel, J., **Anderson, S.**, Skoe, E., \*Yi, H.-G., and Kraus, N. (2012). "Subcortical representation of speech fine structure relates to reading ability," *NeuroReport* 23, 6-9.
12. **Anderson, S.**, White-Schwoch, T., Parbery-Clark, A., and Kraus, N. (2013). "Reversal of age-related neural timing delays with training," *Proc. Natl. Acad. Sci. USA* 110, 4357-4362.
13. **Anderson, S.**, White-Schwoch, T., \*Choi, H J., and Kraus, N. (2013). "Training changes processing of speech cues in older adults with hearing loss," *Front. Syst. Neurosci.* 7, 1-9.
14. **Anderson, S.**, Parbery-Clark, A., White-Schwoch, T., Drehobl, S., and Kraus, N. (2013). "Effects of hearing loss on the subcortical representation of speech cues," *J. Acoust. Soc. Am.* 133, 3030-3038.
15. **Anderson, S.**, White-Schwoch, T., Parbery-Clark, A., and Kraus, N. (2013). "A dynamic auditory-cognitive system supports speech-in-noise perception in older adults," *Hear. Res.* 300, 18-32.
16. **Anderson, S.**, Parbery-Clark, A., White-Schwoch, T., and Kraus, N. (2013). "Auditory brainstem response to complex sounds predicts self-reported speech-in-noise performance," *J. Speech Lang. Hear. Res.* 56, 31-43.
17. White-Schwoch, T., Woodruff, K., **Anderson, S.**, Strait, D., and Kraus, N. (2013). "Older adults benefit from music training early in life: Biological evidence for long-term training-driven plasticity," *J. Neurosci.* 33, 17667-17674.
18. **Anderson, S.** and Kraus, N. (2013). "The potential role of the cABR in assessment and management of hearing impairment," *Int. J. Otolaryngol.* 2013, 604729.
19. **Anderson, S.** and Kraus, N. (2013). "Auditory training: Evidence for neural plasticity in older adults," *Perspect. Hear. Hear. Disord. Res. Res. Diagn.* 17, 37-57.
20. Parbery-Clark, A., **Anderson, S.**, and Kraus, N. (2013). "Musicians change their tune: How hearing loss alters the neural code," *Hear. Res.* 302, 121-131.
21. **Anderson, S.**, White-Schwoch, T., \*Choi, H J., and Kraus, N. (2014). "Partial maintenance of auditory-based cognitive training benefits in older adults," *Neuropsychologia* 62, 286-296.
22. Skoe, E., Krizman, J., **Anderson, S.**, and Kraus, N. (2015). "Stability and plasticity of auditory brainstem function across the lifespan," *Cereb. Cortex* 25, 1415-26.
23. White-Schwoch, T., Woodruff Carr, K., Thompson, E., **Anderson, S.**, Nicol, T., Bradlow, A., Zecker, S., and Kraus, N. (2015). "Auditory processing in noise: A pre-school biomarker for literacy." *PLOS Biol.* 13, e1002196.
24. **Anderson, S.**, Parbery-Clark, P., White-Schwoch, T., and Kraus, N. (2015). "Development of subcortical speech representation in infant humans," *J. Acoust. Soc. Am.* 137, 3346-55.
25. **Anderson, S.** and Jenkins, K. (2015). "Electrophysiological assessment of auditory training benefits in older adults," *Semin. Hear.* 36, 250-262.
26. Presacco, A., Jenkins, K., Lieberman, R., and **Anderson, S.** (2015). "Effects of aging on the encoding of dynamic and static components of speech," *Ear Hear.* 36, e352-63.
27. Presacco, A., Simon, J.Z., and **Anderson, S.** (2016). "Evidence of degraded representation of speech in noise, in aging midbrain and cortex," *J. Neurophysiol.* 116, 2346-2355.
28. Presacco, A., Simon, J.Z., and **Anderson, S.** (2016). "Effect of informational content of noise on speech representation in the aging midbrain and cortex," *J. Neurophysiol.* 116, 2356-2367.
29. Presacco, A., Innes-Brown, H., Goupell, M.J, and **Anderson, S.** (2017). "Effects of stimulus duration on event-related potentials recorded from cochlear-implant users," *Ear Hear.* 38, e389-e393.

30. Goupell, M.J., Gaskins, C.R., Shader, M.J., \*Walter, E.P., **Anderson, S.**, and Gordon-Salant, S. (2017). "Age-related differences in the processing of temporal envelope and spectral cues in a speech segment," *Ear Hear.* 38, e335-342.
31. Van Dyke, K., Lieberman, R., Presacco, A., and **Anderson, S.** (2017). "Development of phase locking and frequency representation in the infant Frequency-Following Response," *J. Speech Lang. Hear. Res.* 60, 2740-2751.
32. Jenkins, K., Fodor, C., Presacco, A., and **Anderson, S.** (2018). "Effects of amplification on neural phase locking, amplitude, and latency to a speech syllable," *Ear Hear.* 39, 810-824.
33. Karawani, H., Jenkins, K. A., and **Anderson, S.** (2018). "Neural and behavioral changes after the use of hearing aids," *Clin. Neurophysiol.* 129, 1254-1267.

#### II.C.4. Other - Manuscripts in Preparation or Submission

1. Poe, A., Karawani, H., and **Anderson, S.** (in preparation). "Aging effects on neural representation of consonant transitions"

#### II.D. Published Conference Proceedings

##### II.D.1. Refereed Conference Proceedings

1. **Anderson, S.** and Kraus, N. (2010). "Neural encoding of speech and music: Implications for hearing speech in noise," *Semin. Hear.* 32, 129-141.

##### II.D.2. Non-Refereed Conference Proceedings

1. **Anderson, S.** and Kraus, N. (2012). "cABR: A neural probe of speech-in-noise processing," in *Proceedings of ISAAR 2011: Speech perception and auditory disorders* by Dau et al. (ISAAR 2011 International Symposium on Auditory and Audiological Research, August 2011, Nyborg, DK).

## II.E. Conferences, Workshops, and Talks

### II.E.1. Keynotes

1. **Anderson, S.** "Music and speech-in-noise perception," 7th International Adult Aural Rehabilitation Conference: Maximizing the Benefits of Technology through Innovative Intervention, St. Pete Beach, FL, May 2013.
2. **Anderson, S.** "Central assessment of auditory function across the lifespan," The Newfoundland and Labrador Association of Speech-Language Pathologists and Audiologists 36th Annual Conference, St. John's, Newfoundland, September 2014.
3. **Anderson, S.** "Use of the cABR in the assessment and management of auditory function," Upper Midwest Audiology Conference, Bloomington, MN, February 2015.
4. **Anderson, S.** "Evaluation of neural adaptation in new hearing aids users," XIIth International Meeting on Auditory Prostheses, Sao Paolo, Brazil, June 2015.
5. **Anderson, S.** "Objective assessment of central auditory function in children," Missouri Academy of Audiology Scope of Practice, St. Louis, MO, September 2015.
6. **Anderson, S.** "Aging effects on the hearing brain: Clinical implications," NIDCD/UMD Joint Meeting, College Park, MD, October 2016.
7. **Anderson, S.** "Effects of age and training on auditory processing from brainstem to cortex," Hearing4All Symposium, Oldenburg, Germany, November 2021.

### II.E.2. Invited Talks

1. **Anderson, S.** and Kraus, N. "cABR - A neural probe of auditory processing," Audition, Listening and Language Acquisition in Children: Nature, Assessment and Multidisciplinary Approach, Edinburgh, Scotland, March 2011.
2. Kraus, N., **Anderson, S.**, and Parbery-Clark, A. "Hearing in noise across the lifespan and impact of musical experience," AudiologyNOW, Chicago, IL, March 2011.
3. **Anderson, S.** and Kraus, N. "Neural correlates of speech-in-noise perception across the lifespan," International Congress of Audiology and Otolaryngology, Bogota, Columbia, October 2011.
4. **Anderson, S.** and Kraus, N. "Neural correlates of auditory function and training in older adults," Ear Day at Rush University, Chicago, IL, November 2012.
5. **Anderson, S.**, and Levitt, H. "Auditory training: Evidence for neural plasticity in older adults," ASHA Live Event, August 2013.
6. **Anderson, S.** "Neural correlates of auditory function," Kaiser Permanente Regional Audiology Conference, Oakland, CA, May 2014.
7. **Anderson, S.** "Neural correlates of auditory function: cABR assessment," 4th National ENT Physician Association Annual Congress, Beijing, China, October 2014.
8. **Presacco, A.**, Simon, J.Z., and **Anderson, S.** "Effects of aging on temporal synchronization of speech in noise investigated in the cortex by using MEG and in the midbrain by using EEG techniques," Universitas 21 Graduate Research Conference 2014: Celebrating Ageing Research, University of Auckland, New Zealand. \*Travel award.
9. **Anderson, S.** "Biologic index of auditory processing disorders in children," Rhode Island Hearing Assessment Program 21st Annual Seminar, Providence, RI, May 2015.
10. **Anderson, S.** "What can evoked potentials tell you about the hearing aid fitting?" Maryland Academy of Audiology Annual Conference, Baltimore, MD, October 2015.
11. **Anderson, S.** "Electrophysiologic evaluation of auditory function across the lifespan," SHAV Conference, Chantilly, VA, March 2016.
12. **Anderson, S.** "Amplification effects on neural processing," American Academy of Audiology conference, Phoenix, AZ, April 2016.
13. **Anderson, S.** "Effects of aging, hearing loss, and amplification on neural speech encoding," Saskatchewan Hearing Healthcare Conference, Regina, SK, June 2016.
14. **Anderson, S.** "Aging, cognition, and hearing loss: Clinical implications," Michigan Audiology Coalition Conference, East Lansing, MI, October 2016.

15. **Anderson, S.** “Evoked potential testing and the hearing brain,” 18th Annual Texas Academy of Audiology Conference, San Marcos, TX, October 2017.
16. **Anderson, S.** “Beyond the audiogram: Identifying the critical factors that contribute to successful management of hearing loss,” 2017 ACSLPA conference, Edmonton, AB, October 2017.
17. Ananthakrishan, S., Easwar, V., and **Anderson, S.** “Beyond the audiogram: Clinical applications of the frequency-following response,” 2017 ASHA Convention, Los Angeles, CA, November 2017.
18. **Anderson, S.** “New directions in audiological practice: Role of evoked potentials,” SHAV Conference, Williamsburg, VA, March 2018.
19. Karawani, H., Roque, L., Schloss, A., and Anderson, S., “Age-related temporal processing deficits along the auditory pathway,” Association for Research in Otolaryngology MidWinter Meeting, Baltimore, MD, February 2019.
20. Brodbeck, C., Presacco, A., Anderson, S., and Simon, J.Z., “Increased speech representation in older adults originates from early response in higher order auditory cortex,” Association for Research in Otolaryngology MidWinter Meeting, Baltimore, MD, February 2019.
21. **Anderson, S.** “Aging and hearing loss effects on neural speech processing,” Acoustical Society of America, Louisville, KY, May 2019.
22. **Anderson, S.** “Does hearing aid use improve brain function?” Sounds+ Conference, Halifax, Nova Scotia, June 2019.
23. **Anderson, S.** “Beyond the Audiogram: New directions in audiological practice,” Kaiser Permanent Audiology Virtual Conference, May 2020.
24. **Anderson, S.** “Beyond the Audiogram, Effects of aging and hearing loss on central auditory function,” New Zealand Audiological Society Virtual Conference, July 2020
25. **Anderson, S.** “Age-related hearing loss: Problems and solutions,” Hearing Health Hour of the Hearing Health Foundation, October 2020.
26. **Anderson, S.** “Why can’t I hear in noise? Looking for answers beyond the audiogram,” Northeast Audiology Virtual Conference, November 2020.
27. **Anderson, S.** “Potential uses of the speech-evoked brainstem responses in early identification of auditory processing disorders,” cABR CAPD Annual Workshop, online, January 2021.
28. **Anderson, S.** “Beyond the audiogram: New directions in audiological practice,” Hearing research in the lab, the clinic, and the real world, University of Haifa, online, May, 2021
29. **Anderson, S.** “New approaches to objective diagnosis of hearing disorders in older adults,” American Speech-Language-Hearing Association Convention, Washington, D.C., November 2021
30. **Anderson, S.** “Incorporation of the cABR/FFR and other electrophysiological assessments in evaluation of auditory function across the lifespan,” Emerging Trends in Evaluation and Management of Central Auditory Processing Disorder (CAPD), online, January 2022.

### II.E.3. Refereed Presentations

1. **Anderson, S.** and Kraus, N. “Training improves brainstem timing in older adults,” Illinois Academy of Audiology Annual Conference, Chicago, IL, January 2012.
2. **Anderson, S.** and Kraus, N. “Training effects in older adults: Neural mechanisms,” American Auditory Society Annual Meeting, Scottsdale, AZ, March 2013.
3. **Anderson, S.** “What can the cABR tell us about temporal processing deficits in older adults?” American Speech-Language-Hearing Association Convention, Orlando, FL, November 2014.

4. Presacco, A., Jenkins, K., Lieberman, R., and Anderson, S. “The effects of aging on dynamic and static encoding of speech processing,” MidWinter Meeting for the Association for Research in Otolaryngology, San Diego, CA, February 2014. \*Travel award.
5. \*Gaskins, C., Shader, M., Gordon-Salant, S., **Anderson, S.,** and Goupell, M.J. “Age-related differences in consonant perception in real and simulated cochlear-implant users,” MidWinter Meeting for the Association for Research in Otolaryngology, Baltimore, MD, February 2015.
6. Shader, M., Nguyen, N., Hertzano, R., Eisenman, D., **Anderson, S.,** Gordon-Salant, S., and Goupell, M.J. “Do lower stimulation rates improve speech understanding in typically low-performing groups of cochlear-implant users?” MidWinter Meeting for the Association for Research in Otolaryngology, Baltimore, MD, February 2015.
7. **Anderson, S.** and Goupell, M.J. “Effects of aging and bandwidth on the binaural masking level difference assessed with electrophysiological and psychophysical measures,” Association for Research in Otolaryngology Midwinter Meeting, San Diego, CA, February 2016.
8. Karawani, H., Jenkins, K., and Anderson, S. “Neural and behavioral changes after the use of hearing aids,” Eastern Auditory Retreat, Washington, D.C., June 2017.
9. **Anderson, S.,** Kronzek, E., Chisholm, J., Gordon-Salant, and Goupell, M. “Training effects on perception and neural representation of temporal speech cues,” Aging and Speech Communication Research Conference, Tampa, FL, November 2017.
10. **Anderson, S.,** Roque, L., Schloss, A., and Karawani, H. “Aging effects on neural representation and perception of duration cues in speech,” Association for Research in Otolaryngology Midwinter Meeting, San Diego, CA, February 2018.
11. Karawani, H., Roque, L., Schloss, A., and Anderson, S. “Age-related temporal processing deficits revealed in cortical auditory evoked potentials,” American Auditory Society, Scottsdale, AZ, March 2018.
12. **Anderson, S.,** Kronzek, E., Chisholm, J., Gordon-Salant, and Goupell, M. “Training effects on perception and neural representation of temporal speech cues,” Gordon Research Conference: Neuroplasticity of Sensory Systems, Hong Kong, June 2018.
13. Karawani, H. and Anderson, S., “Neural acclimatization to hearing aids,” Association for Research in Otolaryngology Midwinter Meeting, San Jose, CA, February 2020.
14. **Anderson, S.,** Perera, J., Kuchinsky, S., and Simon, J.Z., “Central compensation underlies over-representation of speech signals in the aging auditory cortex,” Association for Research in Otolaryngology Midwinter Meeting, San Jose, CA, February 2022.

#### II.E.6. Refereed Posters

1. **Anderson, S.,** Skoe, E., Zecker, S., and Kraus, N. “Brainstem encoding of speech in noise and its relationship to reading and listening in noise,” MidWinter Meeting for the Association for Research in Otolaryngology, Baltimore, MD, February 2009.
2. **Anderson, S.,** Chandrasekaran, B., \*Yi, H.-G., and Kraus, N. “Cortical evoked auditory processing: Index of neural efficiency in speech-in-noise perception,” Society for Neuroscience Annual Meeting, Chicago, IL, October 2009.

#### II.E.13. Symposia

1. **Anderson, S.** and Kraus, N. “cABR: A neural probe of speech-in-noise processing,” ISAAR 2011 3rd International Symposium on Auditory and Audiological Research, Speech Perception and Auditory Disorders, Nyborg, Denmark, August 2011.
2. **Anderson, S.** and Kraus, N. “Auditory training for older adults,” The Inaugural MED-EL UK Rehabilitation Symposium, York, UK, October 2012.
3. **Anderson, S.** “Neural mechanisms of hearing loss and training and their clinical implications,” 8th Annual Hearing Symposium: Complex Auditory Processing and Disorders, Center for Hearing Research, University of California, Irvine, CA, May 2013.
4. **Anderson, S.** “Electrophysiological assessment of central auditory dysfunction,” Military Central Auditory Processing Symposium, Bethesda, MD, October 2016.
5. **Anderson, S.**, “Age-related deficits in neural processing revealed for specific temporal components of speech,” AESoP 2019 Symposium, Leuven, Belgium, September 2019.
6. Kulasingham, J., Brodbeck, C., Presacco, A., Kuchinsky, S., Anderson, S., and Simon, J.Z. “High frequency cortical processing of continuous speech in younger and older listeners,” AESoP 2019 Symposium, Leuven, Belgium, September 2019.
7. **Anderson, S.**, “Beyond the audiogram: New directions in audiological practice,” Hearing Research in the Lab, the Clinic, and the Real World, University of Haifa, online, May 2021.

#### II.E.14. Workshops

1. **Anderson, S.** and Kraus, N. “Brainstem correlates of speech-in-noise perception,” Auditory Temporal Processing in Normal and Impaired Ears, TFS Workshop at École Normale Supérieure, Département d’Études Cognitives, Paris, France, December 2009.
2. **Anderson, S.** and Kraus, N. “The essential audiologists workshop: cABR, MLR, and LLR,” Minnesota Speech and Hearing Association conference, Burnsville, MN, October 2012.
3. **Anderson, S.**, and Kraus, N. “Music and speech-in-noise perception,” MED-EL UK 17th Annual Workshop, Zell am Ziller, Austria, January 2013.
4. **Anderson, S.** “Music: Impact on aging and hearing,” National Center for Creative Aging National Leadership Exchange and Conference, Washington, D.C., June 2014.

5. **Anderson, S.** “Introduction to occupational noise exposure,” 3<sup>rd</sup> Auditory and Vestibular Translational Research Day, Baltimore, MD, October 2017.
6. **Anderson, S.** “Interacting effects of aging, hearing loss, and cognition on midbrain and cortical processing,” Signal and Noise along the Auditory Pathway 2017, Lubeck, German, December 2017.

#### II.E.15. Colloquia

1. **Anderson, S.,** Skoe, E., and Kraus, N. “Hear with our brains, not just with our ears,” Northshore Senior Center, Skokie, IL, July 2008.
2. **Anderson, S.,** Skoe, E., and Kraus, N. “Brainstem encoding of speech in noise and its relationship to reading and listening in noise,” CSD Research Forum, Northwestern University, Evanston, IL, September 2008.
3. **Anderson, S.,** Chandrasekaran, B., \*Yi, H.-G., and Kraus, N. “Cortical evoked auditory processing: Index of neural efficiency in speech-in-noise perception,” CSD Research Forum, Northwestern University, Evanston, IL, September 2009.
4. **Anderson, S.,** Parbery-Clark, A., \*Yi, H.-G., and Kraus, N. “Objective neural indices of speech-in-noise perception in older adults,” CSD Research Forum, Northwestern University, Evanston, IL, September 2010.
5. **Anderson, S.** and Kraus, N. “Infant hearing loss: Effects on neural development,” invited speaker at Institute of Design, Chicago, IL, November 2010.
6. **Anderson, S.** and Erickson, K. “Auditory Neuropathy Spectrum Disorder (ANS): “Biological implications for assessment and management,” Case-based presentation, Northwestern, University, Evanston, IL, May 2011.
7. **Anderson, S.** and Kraus, N. “Hearing in noise in older adults: Biological insights and strategies for improvement,” invited speaker at Department of Speech and Hearing Sciences, University of Washington, Seattle, WA, May 2011.
8. **Anderson, S.,** Parbery-Clark., \*Choi, H.J., and Kraus, N. “Training improves neural timing in older adults,” CSD Research Forum, Northwestern University, Evanston, IL, September 2011.
9. **Anderson, S.,** White-Schwoch, T., Choi, H.J., Drehobl, S., and Kraus, N. “Training reverses central processing consequences of hearing loss in older adults,” CSD Research Forum, Northwestern University, Evanston, IL, September 2012.
10. **Anderson, S.** and Kraus, N. “Effects of aging and hearing loss on subcortical representation of speech cues,” invited speaker at University of Manchester, Manchester, UK, October 2012.
11. **Anderson, S.** “Neural mechanisms of hearing loss and training in older adults,” Department of Hearing and Speech Sciences Seminar Series, College Park, MD, April 2013.
12. **Anderson, S.** “Development of subcortical speech representation in infants,” UMD Winter Storm Language Science Workshop, College Park, MD, January 2014.
13. **Anderson, S.** “Neural correlates of auditory processing disorders in children,” Department of Hearing and Speech Sciences Seminar Series, College Park, MD, November 2015.
14. **Anderson, S.** “The effects of aging and hearing loss on the ability to understand speech in complex environments,” Insights into the Dynamics of Aging: Current Research at UMD, College Park, MD, February 2019.
15. **Anderson, S.** “Neuroplasticity and Auditory Aging: Objective evidence,” KU Leuven, Leuven, Belgium, November 2019.

#### II.F. Professional and Extension Publications

## II.F.9. Non-Refereed Journal Articles

1. Kraus, N. and **Anderson, S.** (2012). "Hearing with our brains," *Hear. Jour.* 65(9), 48.
2. Kraus, N. and **Anderson, S.** (2012). "cABR may improve hearing aid outcomes," *Hear. Jour.* 65(11), 56.
3. Kraus, N. and **Anderson, S.** (2013). "The effects of aging on auditory processing," *Hear. Jour.* 66(1), 36.
4. Kraus, N. and **Anderson, S.** (2013). "Music training: An antidote for aging," *Hear. Jour.* 66(3): 52.
5. Kraus, N. and **Anderson, S.** (2013). "In older adults, the brain can still be trained to hear in noise," *Hear. Jour.* 66(5), 32.
6. Kraus, N. and **Anderson, S.** (2013). "The auditory-cognitive system: To screen or not to screen," *Hear. Jour.* 66(7), 36.
7. Kraus, N. and **Anderson, S.** (2013). "For reading development, auditory processing is fundamental," *Hear. Jour.* 66(9), 40.
8. Kraus, N. and **Anderson, S.** (2013). "Treatment for auditory based learning impairments: Evidence supports efficacy," *Hear. Jour.* 66(11), 40.
9. **Anderson, S.** (2014). "A closer look," *Hearing Health*, 30(1), 14-15.
10. Kraus, N. and **Anderson, S.** (2014). "Music benefits across the lifespan: Enhanced processing of speech in noise," *Hear. Rev.* August 18-21.
11. Kraus, N. and **Anderson, S.** (2014). "The ear-brain connection: the role of cognition in neural speech processing," *ENT & Audiology News* 23(3), 98-99.
12. Kraus, N. and **Anderson, S.** (2014). "Bigger is not better: Effects of hearing loss on central processing," *Hear. Jour.* 67(1), 24.
13. Kraus, N. and **Anderson, S.** (2014). "Better speech processing in smaller amplitudes," *Hear. Jour.* 67(3), 48.
14. Kraus, N. and **Anderson, S.** (2014). "Childhood music lessons may offset neural timing delays in older adults," *Hear. Jour.* 67(5), 48.
15. Kraus, N. and **Anderson, S.** (2014). "Bilingualism enhances neural speech encoding," *Hear. Jour.* 67(7), 40.
16. Kraus, N. and **Anderson, S.** (2014). "Toward a biologic index of APD," *Hear. Jour.* 67(9), 48.
17. Kraus, N. and **Anderson, S.** (2014). "Community-based training shows objective evidence of efficacy," *Hear. Jour.* 67(11), 46-47.
18. Kraus, N. and **Anderson, S.** (2015). "Identifying neural signatures of auditory function," *Hear. Jour.* 68(1), 38-40.
19. Kraus, N. and **Anderson, S.** (2015). "Beat-keeping ability relates to reading readiness," *Hear. Jour.* 68(3), 54-56.
20. Kraus, N. and **Anderson, S.** (2015). "Low socioeconomic status linked to impaired auditory processing," *Hear. Jour.* 68(5), 38-40.
21. **Anderson, S.** (2016). "Is there a role for evoked potentials in the hearing aid fitting?" *Canad. Audiol.* 3(6).
22. **Anderson, S.** (2018). "Introducing mysteries of the hearing brain," *Canad. Audiol.* 5(5).
23. **Anderson, S.** (2019). "Neural and cognitive benefits of hearing aid use," *Hear Jour.* 72(3), 10-12.
24. **Anderson, S.** (2018). "Mysteries of the Hearing Brain – Hearing aid effects on neural processing," *Canad. Audiol.* 5(6).
25. **Anderson, S.** (2019). "Mysteries of the Hearing Brain – Hearing aid use and plasticity," *Canad. Audiol.* 6(1).
26. **Anderson, S.** (2019). "Mysteries of the Hearing Brain – Adjusting to loudness," *Canad. Audiol.* 6(2).

27. **Anderson, S.** (2019). "Mysteries of the Hearing Brain – Decreased temporal processing and Aging," *Canad. Audiol.* 6(3).
28. **Anderson, S.** (2019). "Mysteries of the Hearing Brain – Auditory training and neuroplasticity," *Canad. Audiol.* 6(4).
29. **Anderson, S.** (2019). "Mysteries of the Hearing Brain – Ingredients for effective auditory learning," *Canad. Audiol.* 6(5).
30. **Anderson, S.** (2019). "Mysteries of the Hearing Brain – EEG, ERP, ALR, ASSR, cABR – What does it all mean?" *Canad. Audiol.* 6(6).
31. **Anderson, S.** (2020). "Mysteries of the Hearing Brain -Is it ANSD or cortical deafness?" *Canad. Audiol.* 7(1).
32. **Anderson, S.** (2020). "Mysteries of the Hearing Brain - Can we incorporate real-world signals in clinical EEG testing?" *Canad. Audiol.* 7(2).
33. **Anderson, S.** (2020). "Mysteries of the Hearing Brain - What can rate code tell us about cochlear-implant and older listeners?" *Canad. Audiol.* 7(3).
34. **Anderson, S.** (2020). "Mysteries of the Hearing Brain – Music and the hearing brain," *Canad. Audiol.* 7(5).
35. **Anderson, S.** (2020). "Mysteries of the Hearing Brain - Our amazing auditory brains," *Canad. Audiol.* 7(6).
36. **Anderson, S.** (2021). "Mysteries of the Hearing Brain - Biological basis of auditory processing deficits in children," *Canad. Audiol.* 8(1).
37. **Anderson, S.** (2021). "Mysteries of the Hearing Brain - Identification of auditory processing disorders with the cABR," *Canad. Audiol.* 8(5).
38. **Anderson, S.** (2021). "Mysteries of the Hearing Brain – What is normal hearing?" *Canad. Audiol.* 9(1).

II.G. Sponsored Research and Programs – Administered by the office of Research Administration (ORA)

II.J.1. Grants

Current External:

P01 AG055365 (renewal pending)

Title: Neuroplasticity in auditory aging and mild cognitive impairment

Source: National Institute on Aging

Dates: 09/1/2022 – 03/31/2027

Total Award: \$19,441,616

Role: MPI

P01 AG055365 (renewal pending)

Title: Administrative Core

Source: National Institute on Aging

Dates: 09/1/2022 – 03/31/2027

Total Award: \$19,441,616 (with previous listing)

Role: Co-Lead

P01 AG055365 (renewal pending)

Title: Human Subjects Research Core

Source: National Institute on Aging

Dates: 09/1/2022 – 03/31/2027

Total Award: \$19,441,616 (with previous listing)

Role: Co-Lead

Lead: Sandra Gordon-Salant

P01 AG055365 (renewal pending)  
 Title: Auditory temporal processing  
 Source: National Institute on Aging  
 Dates: 09/1/2022 – 03/31/2027  
 Total Award: \$19,441,616 (with previous listing)  
 Role: PI

P01 AG055365 (renewal pending)  
 Title: Speech perception with high cognitive demand  
 Source: National Institute on Aging  
 Dates: 09/1/2022 – 03/31/2027  
 Total Award: \$19,441,616 (with previous listing)  
 Role: Co-I  
 PI: Jonathan Z. Simon

R01DC020316  
 Source: National Institute on Communication and Other Disorders  
 Title: Peripheral and central contributions to auditory temporal processing deficits and speech understanding in older cochlear implantees  
 Total award: \$2,651,491  
 Dates: 04/01/2022-03/31/2027  
 Role: Co-I  
 PI: Matthew J. Goupell

R01DC019394  
 Source: National Institute on Communication and Other Disorders  
 Title: Multilevel auditory processing of continuous speech, from acoustics to language  
 Total award: \$3,582,457  
 Dates: 09/17/2021 – 08/31/2026  
 Role: Co-I  
 PI: Jonathan Z. Simon

T32 DC000046  
 Title: Center of Comparative Evolutionary Biology of Hearing Training Grant  
 Source: National Institute on Deafness and Other Communication Disorders  
 Total award: \$1,825,485  
 Dates: 07/01/2021-06/30/2026  
 Role: Core Faculty Member  
 PIs: Carr, Gordon-Salant

Title: Effects of familiar risk of autism on neural speech processing (?)  
 Source: The Brain and Behavioral Research Foundation Young Investigator Grant  
 Total award: 70,000  
 Dates: 07/15/2021-07/14/2023  
 Role: Consultant  
 PI: Rachel Reetzke

Title: Optimizing speech recognition and cognitive outcomes for older cochlear implant users via tele-delivery of auditory brain training  
 Source: National Institute on Disability, Independent Living, and Rehabilitation Research  
 Dates: 02/01/2022-01/31/2027  
 Role: Consultant  
 PIs: David Thornton and Claire Bernstein

Title: Identifying the auditory mechanisms supporting speech-in-noise and accented-speech recognition in middle-aged listeners with and without sensorineural hearing loss  
 Source: American Hearing Research Foundation  
 Total award: \$70,000  
 Dates: 01/01/2022-12/31/2023  
 Role: Consultant  
 PI: Jennifer Krizman

F31DC020120  
 Title: Determining the mechanisms of spoken language processing delay for children with cochlear implants  
 Source: National Institute on Deafness and Other Communication Disorders  
 Total award: \$78,413  
 Dates: 07/01/2022-06/30/2024  
 Role: Consultant  
 PI: Christina Blomquist

Current Internal:

Title: Machine learning analyses of audiological data to predict age-related declines in hearing and cognition  
 Source: Brain & Behavior Institute Seed Grant  
 Total award: \$137,680  
 Dates: 01/01/2022-12/31/2022  
 Role: Co-I  
 PI: Matthew J. Goupell and Michael P. Cummings

Completed External:

R21 DC015843  
 Title: Age-related changes in neural encoding and perception of temporal speech cues  
 Source: National Institute on Deafness and Other Communication Disorders  
 Total award: \$435,703  
 Dates: 09/01/2016-08/31/2019  
 Role: PI

R01 AG051503  
 Source: National Institute on Aging  
 Title: Temporal processing and speech understanding in older cochlear implantees  
 Total award: \$1,533,597  
 Dates: 09/30/2016 – 04/30/2021  
 Role: Co-I

PI: Matthew J. Goupell

R01 DC015798

Title: Optimizing bilateral and single-sided deafness cochlear implants for functioning in complex environments

Source: National Institute on Deafness and Other Communication Disorders

Total Award: \$1,971,162

Dates: 12/01/2016 – 11/30/2021

Role: Co-I

PI: Matthew J. Goupell

Title: Effects of aging, hearing loss, and hearing aid compression settings on midbrain processing of temporal speech contrasts

Source: American Hearing Research Foundation

Total award: \$20,000

Dates: 01/01/2016-12/31/2017

Role: PI

Title: Neural adaptation in new hearing aid users

Source: Hearing Health Foundation

Total award: \$29,880

Dates: 07/01/2014-06/30/2016

Role: PI

Completed Internal:

Title: Assessment of tinnitus treatment outcomes with behavioral and neural measures

Source: University of Maryland – College Park, College of Behavioral and Social Sciences

Total award: \$10,000

Dates: 06/01/2019-05/31/2020

Role: PI

Title: Effects of aging on speech-in-noise processing in the auditory cortex and midbrain

Source: Advance Interdisciplinary and Engaged Research Seed Grant

Total award: \$19,868

Dates: 04/01/2014-03/31/2015

Role: Co-PI

Title: Neurodegenerative effects of aging on auditory temporal processing

Source: University of Maryland – College Park, College of Behavioral and Social Sciences

Total award: \$12,000

Dates: 06/01/2015-05/31/2016

Role: PI

Title: Understanding the effect of age and duration of deafness on speech recognition in Cochlear Implant users

Source: Brain Behavior Initiative  
 Total award: \$75,000  
 Dates: 04/01/2016-03/31/2017  
 Role: Co-PI

Title: Use of auditory evoked potentials to improve early diagnosis of language impairment  
 Source: University of Maryland – College Park, College of Behavioral and Social Sciences  
 Total award: \$12,000  
 Dates: 06/01/2016-05/31/2017  
 Role: PI

Title: Neuroplasticity in auditory aging  
 Source: University of Maryland Division of Research Tier 2 Seed Grant  
 Total Award: \$75,000  
 Dates: 07/01/2015 – 06/30/2017  
 Role: Co-Investigator  
 PI: Sandra Gordon-Salant

#### II.P. Research Fellowships, Prizes and Awards

1. T32 Translational Research Grant (Trainee), National Institutes of Health, 2009-2011
2. John D. and Lucille H. Clark Scholarship Dissertation, Department of Communication Sciences and Disorders, 2011
3. New Century Scholar, American Speech-Language-Hearing Foundation, 2011
4. Loan Repayment Program, National Institutes of Health, 2011-2014
5. Doctoral Scholarship Research award, Illinois Academy of Audiology, 2012
6. New Investigator Travel Award, American Auditory Society Annual Conference, 2016
7. University of Maryland Graduate School Research and Scholarship Award, 2016
8. University of Maryland Research Excellence Award, 2020

#### **Teaching, Extension, Mentoring, and Advising**

##### III.A. Courses Taught (last 5 years)

1. Undergraduate
  - Hearing and Speech Sciences 411: Introduction to Audiology
  - Spring 2017      40 students
  - Spring 2018      25 students
  - Spring 2020      9 students
  - Fall 2020        46 students
  - Fall 2021        50 students

Hearing and Speech Sciences 499: Topics in HESP

- Spring 2017      5 students
- Fall 2017        2 students
- Spring 2018      1 student
- Fall 2018        3 students
- Spring 2019      4 students
- Fall 2019        3 students
- Spring 2020      1 student
- Fall 2020        1 student

Fall 2021 3 students  
 Spring 2022 2 students

Hearing and Speech Sciences 499H: Topics in HESP (Honors)  
 Spring 2020 1 student

## 2. Graduate

Hearing and Speech Sciences 706: Advanced Clinical Audiology  
 Spring 2017 6 students  
 Spring 2018 7 students  
 Spring 2019 8 students  
 Spring 2020 10 students  
 Spring 2021 10 students  
 Spring 2022 4 students

Hearing and Speech Sciences 630: Electrophysiological Measurements  
 Fall 2017 5 students  
 Fall 2018 8 students  
 Fall 2019 9 students  
 Fall 2020 9 students  
 Fall 2021 8 students

Hearing and Speech Sciences 635: Aural Rehabilitation  
 Summer 2019 7 students

Hearing and Speech Sciences 704: Audiology Practice Management  
 Winter 2017 15 students  
 Winter 2019 12 students  
 Winter 2021 17 students

Hearing and Speech Sciences 710: Industrial and Environmental Noise Problems  
 Fall 2017 8 students  
 Fall 2018 5 students

Hearing and Speech Sciences 708: Independent Study  
 Spring 2018 1 student  
 Spring 2022 1 student

### III.B. Teaching Innovations

#### III.B.6. Course or Curriculum Development

1. Developed a new course for the Audiology curriculum: Audiology Practice Management
2. Teaching Innovation Grant – UMD  
 Proposal to redesign Hearing and Speech Sciences audiology courses  
 P.I. Anderson, S., Hoover, E.C., Gordon-Salant, S.  
 Role: Principal Investigator  
 Total Funding: \$19,320

#### III.B.7. Other

1. Elevate Fellows program (2017 – present)
2. Redesigned Introduction to Audiology class to incorporate diversion and inclusion

### Advising: Research or Clinical

#### III.C.1. Undergraduate

- Northwestern University – Evanston, IL:
  - Han Gyol-Yi (Fall 2010 – Summer 2011, Summer Scholar)
  - Hee Jae Choi (Fall 2011 – Summer 2012, Summer Scholar)
- University of Maryland – College Park:
  - Kurt Erhardt (Fall 2013 – Spring 2014)
  - Eve Kronzek (Fall 2014 – Spring 2015)
  - Alanna Schloss (Fall 2015 – Spring 2016)
  - Julie Mehta (Fall 2016 – Spring 2017)
  - Logan Fraser (Fall 2017 – May 2018)
  - Vera Yevsukov (Fall 2018 – Spring 2020)
  - Reynier Hernandez (Summer 2018 – Spring 2019)
  - Aakriti Majahan (Fall 2020 – present)

#### III.C.2. Master’s

##### Master’s Thesis Primary Advisor

1. Rachel Stein Rosner, “Auditory brainstem encoding of stop consonants in infants and implications for later language development,” May 2016.
2. Kolberg, Elizabeth, Co-Mentor, Fall 2019 – Spring 2021

#### III.C.3. Doctoral

##### Doctoral Dissertation (Ph.D.)

1. Alessandro Presacco, Co-Mentor, “Effects of aging on midbrain and cortical speech-in-noise processing,”  
Start Date: Summer 2013  
Date of Graduation: 2016
2. Katlyn Bostic, Mentor, September 2016 – December 2016
3. Jason Dunlap, Co-Mentor, Fall 2016 – Fall 2021
4. Bieber, Rebecca, Co-Mentor, “Influence of supportive context and stimulus variability on rapid adaptation to non-native speech,”  
Start Date: Spring 2018  
Date of Graduation: Fall 2021

##### Other Doctoral Dissertation Students

1. Maureen Shader, committee member, Spring 2014 – Spring 2019
2. Brittany Jaekel, committee member, Spring 2015 – Summer 2020
3. Julie Cohen, committee member, Fall 2015 – Summer 2020
4. Jaclyn Schurman, committee member, Fall 2015 – Summer 2020
5. Krishna Puvvada, committee member, Fall 2016 – Fall 2017
6. Mary Barrett, committee member, Spring 2019 – present
7. Katherine Palandrani, committee member,
8. Peng Zan, Dean’s representative, Fall 2019
9. Lien DeCruy, committee member, Fall 2019, KU Leuven, Belgium
10. Florine Bachmann, committee member, Spring, 2022, Technical University of Denmark

##### Doctoral Capstone Research Project Advisor (Au.D.)

1. Kimberly Jenkins, “Effects of amplification on auditory evoked responses,” April 2015.

2. Rachel Lieberman, “Brainstem differentiation of stop consonants during the first year of life,” April 2015.
3. Kathryn Miles Jackson, “Effects of amplification and remote microphone technology on the frequency following response,” April 2015.
4. Robert Ellis (co-mentor), “Effects of aging and bandwidth on the binaural masking level difference assessed with electrophysiological and psychophysical measures,” April 2015.
5. Sarah Shin (co-mentor), “Effects of hearing aid compression on midbrain speech encoding in older adults with hearing loss,” April 2017.
6. Amber Frazier (co-mentor), “Effects of hearing aid compression release time on perception of temporal speech contrasts,” April 2017.
7. Eve Kronzek (co-mentor), “Training effects on perception and neural representation of temporal speech cues,” April 2018.
8. Jennifer Chisholm (co-mentor), “Effects of auditory training on processing of temporal speech cues in older adults,” April 2018.
9. Lindsey Roque, “Effects of age, cognition, and neural encoding on the perception of temporal speech cues,” May 2019.
10. Schloss, Alanna, “Role of the auditory periphery in self-assessment of hearing ability in younger and older adults,” May 2020.
11. Rachel Zimmerman, “The relationship between auditory brainstem response (ABR) parameters, perceptual speech measures, and perceived listening difficulty,” May 2020.
12. Jennifer Borja, “Neurophysiological Mechanisms of Tinnitus,” May 2021.
13. Thuy-Giang Le, “Temporal Processing Differences between Young and Older Listeners with Normal Hearing,” May 2021.
14. Janani Perera, “Central compensation in the brainstem is associated with enhanced cortical responses,” May 2021.
15. Mary Schwartz (co-mentor), “Effects of CI Stimulation Rates on Cortical Auditory Evoked Potentials,” May 2021.
16. Abigail Poe, “Effects of age on the neural representation of speech cues,” May 2022.
17. Logan Fraser, “Effects of time compression on perception and neural encoding of word stimuli,” May 2022.

#### III.C.4. Post-doctoral

1. Hanin Karawani, mentor, Fall 2016 – Summer 2018
2. Alessandro Presacco, co-mentor, Fall 2018 – present
3. Lindsay DeVries, co-mentor, Fall 2018 – 2020
4. Zilong Xie, co-mentor, Fall 2018 – 2020
5. Julie Cohen, co-mentor, Fall 2020- 2021

#### III.C.5. Other Directed Research

##### High School Students

1. Nefia Son, Fall 2013 – Spring 2014
2. Elania Tait, Fall 2013 – Spring 2014
3. Chinemeh Ebiya, Fall 2014 – Spring 2015
4. Raquel Rowell, Fall 2018 – Spring 2019
5. Belquis Mbayu, Fall 2019 – Spring 2020

##### Summer Research Initiative Students

1. Stephanie Turcos (Summer 2019)
2. Alessandra Vidal (Co-mentor, Summer 2020)
3. Andrea Simons (Summer 2022)

Advising: Other than Directed Research

## II.E.3. Doctoral

- Academic Advising for Doctor of Audiology (Au.D.) Students
- Fall 2017 – Spring 2018 (6)
- Fall 2018 – Spring 2019 (7)
- Fall 2019 – Spring 2020 (6)
- Fall 2020 – Spring 2021 (9)
- Fall 2021 – Spring 2022 (9)

II.F. Professional and Extension Education

## III.F.4. Guest Lectures

- Rush University, Chicago, IL – Spring 2011, 2012
- Gallaudet University, Washington, D.C. – Fall 2014, 2015, 2016, 2017, 2018, 2019, 2020, 2021, 2022

III.I. Teaching Awards

1. Excellence in Teaching Award, College of Behavioral and Social Sciences, 2017

**IV. Service and Outreach**IV.A. Editorships, Editorial Boards, and Reviewing Activities

## IV.A.1. Editor

1. International Journal of Audiology, Associate Editor (2021 – present)
2. Journal of Communication Disorders, Associate Editor (2021 – present)
3. Frontiers in Aging Neuroscience, Topic Editor (2021-2022)

## IV.A.2. Editorial Boards

1. American Journal of Audiology (2016 – present)

## IV.A.3. Reviewing Activities for Journals and Presses

1. Journal of the Acoustical Society of America
2. International Journal of Otolaryngology
3. Frontiers in Psychology
4. American Journal of Audiology
5. Child Neuropsychology
6. PLOS ONE
7. Perceptual and Motor Skills
8. Journal of Neurophysiology
9. Gerontology and Geriatric Medicine
10. Psychophysiology
11. Neurobiology of Aging
12. Developmental Science
13. Brain and Language
14. Journal of the American Academy of Audiology
15. Journal of the Association for Research in Otolaryngology
16. Hearing Research
17. Journal of Environmental and Public Health
18. Journal of Speech, Language, and Hearing Research
19. Neuron
20. Ear and Hearing
21. Nature Communications

22. Neuroscience Letters
23. Brain and Behavior Research
24. Cerebral Cortex
25. Trends in Hearing

IV.A.4. Reviewing Activities for Agencies and Foundations

1. 2013, Reviewer, Israel Science Foundation
2. 2015, Reviewer, Czech Science Foundation
3. 2015, Reviewer, Fonds de recherche du Québec – Nature et technologies
4. 2017, 2018, Reviewer, ASH Foundation
5. 2018, Reviewer, Research Council KU Leuven, Belgium
6. 2018, Reviewer, Action on Hearing Loss
7. 2018, Reviewer, RR&D SPiRE Review
8. 2019, Reviewer, Research Council KU Leuven, Belgium
9. 2019, Reviewer, RRD3 Scientific Review Meeting
10. 2019, Reviewer, Retirement Research Foundation
11. 2019, Reviewer, Medical Research Council, United Kingdom
12. 2019, Reviewer, Swiss National Science Foundation
13. 2020, Reviewer, Dunhill Medical Trust, United Kingdom
14. 2020, Reviewer, NIH NIDCD Scientific Review Meeting
15. 2020 – present, Reviewer, RRD3 Scientific Review Meeting

IV.B. Committees, Professional & Campus Service

IV.B.1. Campus Service – Department

- HESP CAUD Program Planning Subcommittee (Fall 2013 – present)
- HESP AUD Faculty Search Committee (Fall 2014 – Spring 2015)
- HESP Graduation Committee (Spring 2015)
- HESP AUD Clinical Faculty Search Committee (Spring 2016)
- HESP Merit Committee (Spring 2016, Spring 2022)
- HESP CAUD Comprehensive Examination Coordinator (Fall 2016 – Spring 2021)
- HESP AUD Clinical Faculty Search Committee Chair (Spring 2017 – Summer 2017)
- HESP AUD Faculty Search Committee Chair (Fall 2017 – Spring 2018)
- HESP Teaching and Awards Committee (Fall 2017 – Spring 2021)
- HESP Admissions Committee (Fall 2017 – present)
- HESP Equity and Diversity Committee (Spring 2019 – present)
- HESP Program Planning Committee (Fall 2019 – present)
- Ph.D. Comprehensive Exams Committee (Spring 2018 – present)
- ATP Committee, Jaren Novick (Summer – Fall, 2018)
- ATP Committee, Olga Stakhovskaya (Summer 2018)
- HESP AUD Clinical Faculty Search Committee (Fall 2018)
- HESP AUD Clinical Faculty Search Committee (Spring 2019)
- HESP Admissions Chair (Fall 2021 – present)
- HESP Director of Audiology (Fall 2021)

IV.B.2. Campus Service – College

- Maryland Charity Campaign Co-Captain (Fall 2014, 2015, 2018)
- BSOS Faculty & Staff Awards and Nominations Committee (Spring 2018)
