Expressive Writing Group: This goal-directed group will focus on use of writing as a communication tool. Reading and writing difficulty will be modified to meet each participant's needs.

Motor Speech Group: This goal-directed group is designed for those with significant apraxia in addition to aphasia. Group will focus on using individualized phrases purposefully in everyday contexts.

Reading Group: This goal-directed group will use a variety of short written material to target reading comprehension, oral reading, and discussion of texts.

Conversation Group: This goal-directed group will work on conversational communication skills using a variety of topics of interest to group members.

Research Opportunities: Multiple research opportunities are available and can be scheduled around your therapy times. Let us know if you are interested and we will see which studies you might qualify for.
